

NOUMABEU MOUTACDIE Jordan

DevOps & Cloud Engineer · Backend / Full-stack Developer · AWS Solutions Architect Associate

+237 676 138 720 jordanoumabeu1@gmail.com in/jordan-noumabeu-moutacdie github.com/Moutacdie2000 Yaoundé, Cameroon

PROFILE

DevOps & Cloud engineer and backend developer, certified **AWS Solutions Architect Associate**. I design, automate and harden infrastructure (Linux, Terraform IaC, Kubernetes, CI/CD) and build robust microservices-oriented back-ends (NestJS, .NET, Django). Comfortable from cloud provisioning all the way to application code, with a strong focus on **reliability, security and observability**.

SKILLS

Cloud & IaC	AWS (EC2, IAM, VPC, S3, RDS, Route 53, CloudWatch, EKS, Lambda), Azure, Terraform / Terragrunt	Containers	Docker, Kubernetes, Helm, ArgoCD (GitOps)
CI/CD	GitLab CI, GitHub Actions, build / test / deploy pipelines	Backend	Node.js / NestJS, .NET 8, Python / Django (DRF), REST APIs, microservices, JWT / RBAC
Front-end	React, Next.js, TypeScript	Data	PostgreSQL, MySQL, Redis, Prisma
Observability	Prometheus, Grafana, Loki, OpenTelemetry, log analysis	Security	SSH bastion, hardening, secrets management, DevSecOps (Trivy, gitleaks)
Languages	TypeScript, Python, C#, SQL, Bash, C	Methods	IaC, GitOps, Agile, automation (Ansible)

PROFESSIONAL EXPERIENCE

DevOps Consultant & Backend Developer · Corextreme Technologies Jan. 2026 - Present

- High-load **sports betting & gaming** platform, **microservices architecture (16+ services)**.
- Development and maintenance of back-end services (APIs, integrations, real-time processing).
- DevOps industrialization: containerization, CI/CD pipelines, service deployments and observability.
- Reliability and performance: monitoring, security and scalability best practices.

Cloud Engineer – AWS Deployment · ALORI (Remote) Nov. 2025 - Present

- Deployment of a microfinance application on **AWS Amplify** (hosting, CI/CD, managed environments).
- Continuous integration pipeline (front-end build & release), environment hardening (IAM, variables, branches).
- Performance monitoring, release lifecycle management and build-time optimization.

Cloud Computing Trainer (AWS / DevOps) · IFP-T, Yaoundé Oct. 2025 - Present

- Design and delivery of training courses: AWS, Azure, GCP, IaC (Terraform), Ansible, Docker, CI/CD.
- Mentoring, hands-on labs and AWS certification coaching (Foundational & Associate).

DevOps & Cloud Architect · Global Technologies & Associates Mar. 2025 - Aug. 2025

- Hospital management module (Odoo 18): Docker containerization, **Terraform** provisioning (VPC, EC2, SG), config & deployment with **Ansible**.
- End-to-end **GitLab CI** pipeline (build image → tests → push registry → provision + deploy); hybrid cloud via Azure Arc.

Developer & Cloud Architect Intern · Afriland First Bank Jun. 2024 - Aug. 2024

- Migration architecture of the banking IS to **AWS** (EC2, S3, EFS, IAM, Route 53), HA & DRP options.
- Cost optimization (Cost Explorer), technical diagrams and documentation.

SELECTED PROJECTS

github.com/Moutacdie2000

BuildPilot · Construction SaaS Multi-company construction site management. NestJS, Prisma, Next.js, RBAC, Mobile Money payments, CI/CD & deployment. /buildpilot	AWS Landing Zone Multi-account foundation (Organizations, SCP, IAM Identity Center, GuardDuty) in Terraform / Terragrunt. /aws-landing-zone-terraform
EKS Microservices GitOps Microservices on AWS EKS driven by Helm + ArgoCD, HPA autoscaling, Trivy scanning. /eks-microservices-gitops	Pulse · Monitoring SaaS Multi-tenant uptime monitoring + status pages. Next.js, Prisma, Auth.js, Stripe. /pulse-monitoring
BoxOffice · .NET 8 API Ticketing system guaranteeing no overselling under high concurrency (EF Core). /boxoffice-ticketing	Sudoku · Web Playable game (generator/solver), TypeScript + Vite, deployed. live demo

EDUCATION

Protestant University of Central Africa (UPAC)
Master 1 · Software Engineering 2025 - ongoing
Professional Bachelor · Computer / Software Engineering 2022 - 2025

WORKETYAMO Training Center
DevOps & AWS Cloud 2023 - 2024

LANGUAGES

French - Native **English** - Intermediate (technical)

CERTIFICATION

AWS Certified Solutions Architect – Associate
Valid 2024 - 2027
[Verify certification \(certmetrics\)](#)

INTERESTS

- Cloud architecture & SRE
- IaC / GitOps
- Open-source
